Dear Mr. Lake,

IT IS MY RIGHT TO KNOW WHAT IS IN/ON ANY PRODUCT I CONSUME.  
God gave me cognitive reasoning, it is up to me to use it. But I can only make an educated decision when given all the information. It should be the producers/manufacturers responsibility to disclose what is in any and all products, so that I can decide if I want to put it into my body or not. Some people may not care what they consume, but, there are more of us that do care. No one else should be allowed to make the decision of what is or isn't good for me.

Thank you for listening to my side. I hope you listen to the consumers. Via the internet, consumers are becoming more informed everyday. Manufacturers beware.

Sincerely, Mary Ann Boyce
